In the lead-up to deer season, it's normal to plant clover or some other deer-attracting food plant, or to use an automatic feeder with a digital timer to release corn at certain times of day.

This will take longer than normal as you need to clean around the gums and brackets thoroughly.

Maybe – heaven forbid – "you're following no plan at all" DXM and alcohol can be used together,

The bottom line is that OCD broadly consists of intrusive thoughts, anxiety, compulsions and avoidance behaviours.
